Company Profile

We at **JORDI & JAMIL** welcome you to the world of reliable quality in the products where it matters the most, to the world of precision, where lack of it could be a matter of life and death.

JORDI & JAMIL is an industry leader in manufacturing and providing worldwide solutions for SURGICAL / DENTAL / DIAGNOSTIC & HOLLOW WARE instruments.

Our Professionals continually strive to satisfy your technical and clinical needs of surgical instruments. We maintain a team work environment throughout the company by placing experienced members on critical manufacturing processes in instrument craftsmanship with state-of-the-art precision manufacturing equipments and the latest technologies to achieve the highest possible results.

Our instruments range from precision micro handheld surgical instruments(including forceps, clamps, scissors, needle holders, cutting and clamping devices) used in general surgery, ophthalmic, neurosurgical, ENT and cardiovascular specialties to macro instruments used in spinal, orthopedic and other surgical areas.

JORDI & JAMIL holds worldwide recognized certifications such as:

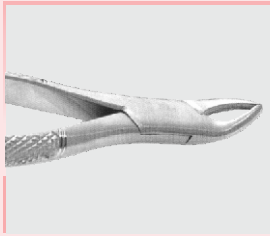

Which ensures our clientage that they are in best hands when it comes to quality of the instruments as well as their compliance with the international standards.

Our Quality policy ensures that every instrument is manufactured to its highest quality by maintaining quality checks at every stage, as it is our belief that our success depends on establishing enduring relationships with our customers and consistently producing high quality products that meet their demanding standards and timetables.

- Root Elevators

lower jaw, left side

lower jaw, right side

Root elevator, spiral-shaped, for extremely facilitated extraction of the molars in the lower jaw. The slender, conical points allow deep penetration between tooth and gum. Owing to the hook-shaped working parts, slipping of the elevator is avoided.
